FAQ - Function & Features

Q: Do I have to use a company card on marketplace or can I use a personal card?

A: You can use any card you wish, alternatively you can use your account balance to pay for marketplace gifts.

Q: How do the payments work?

A: Any gifts loaded onto your account will be pre-paid by a single invoice outside of the platform. You then only pay for shipping, notecards and pick & pack to send these gifts, using a balance agreed with your account manager. You can also use this balance to send ad hoc eGifts and Marketplace gifts.

Q: Can I have different notecard designs for different campaigns?

A: Your team currently has a single notecard design, but this can be changed with the help of your account manager. The ability to add a specific design to each campaign will be added shortly.

FAQ - Marketplace

Q: Can Marketplace or WS orders be dedicated for a specific day delivery?

A: At the moment this is not available, but will be added as a new feature shortly.

Q: Can I add my branded notecard to a Marketplace order?

A: Yes, when you send a gift you can include a branded notecard with default campaign text or a personalised message per card.

Q: Do I need to pre-order gifts from marketplace?

A: No, Marketplace gifts mean that you can send off-the-shelf gifts ad hoc and pay for them using the balance loaded onto your account.

FAQ - eGifts

Q: I already send eGifts, what's the advantage of sending them on WorkSends?

A: There are multiple features on WorkSendsa that can make your eGifting more efficient and effective. These include multiple ways to send and only paying for the value of the voucher once it's claimed. Being able to manage them alongside your physical gifting in one place with a central budget means it's easier to track what your team has spent, as well as ROI and analytics.

Q: Can we set expiry dates on eGifts, to keep track of budgets and what is being spent and when?

A: You can pause campaigns so that no more eGifts can be sent or claimed. You can also reactivate them at any time.

Q: How many different brands can I offer in one eGift campaign?

A: We can set up a campaign that offers people a selection of all available brands but the value must be the same for all eGifts.

Q: Can I adjust the value of eGifts/vouchers?

A: Yes, you can adjust the price of each eGift you send or set up a default amount for campaigns where recipients claim their gifts.
